HARD NUTS TO CRACK.

We have several great problems in this country which seem almost beyond our powers to solve. The Indian question has lost nothing of its interest or importance, and the methods by which it shall be finally settled are yet not fully realized. The difficulties to be overcome are mainly these: The Indians do not speak, and do not wish to learn to speak our language; hence all business with them by individuals and by the government has been and must be transacted through the medium of interpreters, and misunderstandings continually arise. Again, all the traditions of our Indians teach them that the only proper occupation for a brave is war or the chase, and hence they regard labor, manual labor, as degrading. The only difficulty in the way of making Indians self-supporting is that we have not given them a fair chance to become so. The titles of the Indians to most of their reservations, perhaps to all of them, except those in the Indian Territory, are not such as the courts are bound to protect. No Indian will work and improve a ranch which he could not hold. The Secretary of the Interior in his annual report, recommends two things: First, that existing reservations, where entirely out of proportion to the number of Indians thereon, be, with the consent of the Indians, and upon just and fair terms, reduced to proper size; and second, that the titles of these diminished reserves be placed by patent as fully under the protection of the courts as are the titles of all others of our people to their land. These are substantially the recommendations made by Schurz. The department also will build up the schools started by Schurz and which have been found so useful and effective.

EDITORIAL NOTES.

The following flowery fancies are too good to lose. An infant hearing a robin's song, asked, "Mamma, what makes he sing so sweet. Do he eat flowers?" This is equal to what Isaac Disraeli, the father of the late Prime Minister of England, said of the inhabitants of Northern Norway. When they first caught sight of roses in bloom they feared to touch them because they thought the trees were budding with fire.

The *Journal* says, "General Hatch's absence from the Capitol is a standing joke. He has not been there for six full months in the three years. This state of affairs cannot be remedied until the Constitution is amended. An effort should be made at the next session to prepare for the future." What does this mean?

We are sorry to learn that the present leasing of the Gold Hill News has for the present, retired Alf Doten, well-known all over the coast as a journalist of ability. To speak of Nevada journalism and leave Doten out, seems like talking about Nevada with neither Comstock or Angebrush to beautify the landscape.

The new Chinese embassy to Washington is supposed to understand thoroughly the wishes of the Emperor in regard to the late revision of existing treaties, and the proper enforcement of treaty stipulations.

Held on Chinese Opium Deal.

OAKLAND, Cal., December 17.
Today the police made a raid on the Chinese settlement, located near Twenty-second street and San Pablo avenue, and arrested thirty-two. The charge preferred is that they maintained a nuisance by keeping opium dens and indulging in other degrading vices.

Railroad from Laredo to the City of Mexico—Thence West to the Pacific at Menziesville.

New York, December 17.
A *Tribune* special says: The Mexican National Construction Company has been organized for the purpose of building a Mexican national railroad from Laredo to the City of Mexico and from that point west to the Pacific at Menziesville. The capital is \$5,000,000, of which \$4,000,000 is in preferred stock, entitled to a 7 per cent. dividend in advance of \$1,000,000 common stock. The common stock was used to pay for Palmer Sullivan's concession on condition that the preferred stock should be paid for in full in cash. The Construction Company handed over the contract to the Railway Company, reserving the subsidy granted under it. It was to receive for the construction of the line \$20,000 in bonds and \$30,000 in stock per mile. Of the stock and subscription eighty per cent. has been called. All this amount has not been paid and the company has recently sent notices to subscribers requesting immediate payment. The officers of the company decline to make known the amount unpaid, but it is understood to be \$325,000.

Washington News

WASHINGTON, December 17.
The Senate to-day, in executive session, referred the nomination of Brewster as Attorney-General to the Judiciary Committee. Other nominations received were also referred.

Guinea Still in Danger.

WASHINGTON, December 17.
The would-be assassins of Guiteau continue to appear. A photograph of a man named Utely, who is said to have left Nebraska a few days ago to come here and assassinate the assassin, has been received by the authorities here. Notice has also been received that the Molly Maguire of Pennsylvania have been detailed to rid the jury of this responsibility. An attempt is to be made on the 21st.

Heavy Failure.

New York, December 17.
A *Sun's* Baltimore special says: The firm of R. W. L. Rasin & Co., one of the largest houses manufacturing fertilizers in this country, failed to-day. Liabilities variously estimated at from \$500,000 to \$1,500,000. About 3,000 men are thrown out of employment by the failure.

Cow-Boys Take a Town.

WELLINGTON, Kansas, December 17.
The town of Caldwell is in the hands of a cow-boy mob. The officers are powerless to do anything. Mike Magher, formerly Mayor of the city, is killed. The Sheriff, with a posse from Wellington, is just starting for the scene of the trouble.

Arthur's Cabinet.

New York, December 17.
A *Times* Washington special says: The remainder of President Arthur's new Cabinet will probably be as follows: Secretary of War, Robert T. Lincoln; Secretary of the Navy, Geo. S. Boutwell; Postmaster-General, Timothy O. Howe; Secretary of the Interior, Jerome B. Chaffee.

Bank Crookedness.

Boston, December 17.

At a meeting of the creditors of Paul M. Swain, broker and commission dealer in drugs and chemicals, who recently failed, it was shown that the stocks of the debtor had all been hypothecated to secure certain creditors. Total indebtedness, \$444,780; insured indebtedness, \$136,490.

General of Turner.

WASHINGTON, December 17.
General Sherman has gone to St. Louis to attend the funeral of the late General Turner. General Sherman was at one time a partner of Turner's in the banking business at San Francisco.

Increase of Business.

New York, December 17.

The Southern Pacific railroad company is making arrangements for a very heavy traffic. It is expected to carry wheat from San Francisco to Liverpool in thirty-three days, as against 150 days by the Cape Horn route.

Fire at Bates Hill, Miss.

MEMPHIS, Tenn., December 17.
A fire last night at Bates Hill, Mississippi, burned a store, and the livery stable of P. S. Burchard & Co., and the *Blade* newspaper office. But for the efforts of the citizens and a favorable wind, a large portion of the town would have been destroyed.

An Unbroken Line of Railroad from the Mississippi to the Rio Grande.

New York, December 17.

A *World's* London special says: The track-layers of the Missouri, Kansas and Mexico extension completed the

track-laying to the limits of that city to-day. This gives an unbroken direct line of railroad from the Mississippi at St. Louis to the Rio Grande at Laredo, making a through line of about 1,800 miles in length. The southwestern system undertaken by Gould a little more than a year ago, has been completed from the Mississippi at St. Louis to three points, namely: New Orleans, near the Gulf of El Paso on the frontier of Mexico, and Laredo, about half way between these two. Mexico is now reached by an American railroad line. These forces are now rapidly concentrating at this point to commence the great work of pushing on seven hundred miles further to the city of Mexico. Engineers who have had this part of the work in charge have completed their preliminary surveys and report very favorable. The line will run through a rich mining and agricultural country. Extensive deposits of coal have been found on the line of the road, and such arrangements are making that a standard gauge railway line is to be operated by the Missouri Pacific Company from St. Louis through to the City of Mexico, 2,000 miles in length, and may be expected to be completed and in operation in 18 months from this time.

Mrs. Lincoln Totally Blind.

CHICAGO, December 17.

The *Journal* says a Springfield, Ill., letter from Mrs. Abraham Lincoln to friends here conveys the sad news that she has completely lost use of her eyesight. Her letters are written at dictation. She does not say what caused this new trouble. She has been accustomed to sitting in a dark room which may have caused the weakness.

FOREIGN.

Peru Morally, Financially and Politically Bankrupt.

LIVERPOOL, December 17.

In Chili-Peru controversy it is hoped the influence of the American government may be salutary. Peru is morally, financially and politically bankrupt. She cannot indemnify Chili and her promises, like her bonds, are utterly worthless. The acquisition of the Territory of Chili is an accomplished fact, and in Blaine's language, "wise as well as necessary." The desert of Atacama was colonized by Chilians, and draws sustenance naturally from Chili, and not from Peru. Urge the Washington Government to promote the interests of civilization and constitutional government.

England Objects.

LONDON, December 17.

The *Times* on Blaine's dispatch concerning the Clayton-Bulwer treaty says: If international good faith is to count for nothing, with what show of reason can England be required to allow a highway between the two oceans, to be placed under American guns? Blaine must remember that freedom of passage between the two oceans can by no possible event become an exclusive American right. The whole world has an interest in maintaining the free use of great highways.

An American Murdered.

PARIS, December 17.

It is feared that a young American who a month ago obtained circulate notes to a considerable sum for a long tour, has been murdered, as some notes with the original name expunged, have been changed by some swindler at the money changes.

Fight or Die.

PARIS, December 17.

Lieutenant Sullivan, an ardent Communist, waylaid M. Sibour, a nephew of the murdered Archbishop of Paris, and struck him. Sullivan threatened to murder Sibour if he refused to fight him.

Destructive Storm.

TUNIS, December 16.

A violent hurricane last evening swept away numerous tents, destroyed telegraph lines and demolished the wall, killing and injuring twelve soldiers.

San Francisco News.

SAN FRANCISCO, December 17.

Ex-County Clerk Wm. A. Stuart, who returned to the city a few days ago, was interviewed last evening by a *Call* reporter. Among other things, Stuart said he came back to the city of his own will, and against the advice of his friends. He did not seek to cover up his return. On reaching here he sent for his legal adviser, who impressed him with the necessity of keeping quiet a few days until he arranged matters. To the question as to the amount of his indebtedness, Stuart said: "You must excuse me if I profess not to be able to tell you just the amount. It was stated that I am involved to the amount of \$60,000, but it's untrue—\$20,000; yes, \$16,000, will cover the amount."

How do you propose making good the deficit?

Answer: It will all eventually be made good. Some will be liquidated now, and I think that satisfactory arrangement is already made.

It was stated that those of your political and personal friends, to whom you owed your nomination, were instrumental in driving you into trouble, by feasting upon your appointees, is that so?

Answer: No, sir, it is not. I was responsible. Those of my political friends who have always been identified with me, sought to impress upon me the necessity for retrenchment, and if I had not been tied up with other factions I should have taken their advice.

Are you going to remain here?

Answer: Yes sir, I have made a

mistake here, and I am going to rectify it right here. When I left San Francisco I had less than one thousand dollars, but not one cent of which came out of the county clerk's office. I first went to the southern part of the State and then returned here. I then went east and took passage for Europe, but remained on land only six days. Returning, I remained in the East three months, and finally determined I would come back and face my troubles like a man.
